# JUNIOR TENNIS INTRODUCTION & SKILLS DEVELOPMENT

Here at the RHCC Tennis Academy we offer programs for children of all ages and abilities. Our programs have been carefully designed to give your child the best tennis development possible. Our tennis professionals are certified by Tennis Canada and specialize in both junior and adult development and they have the ability to coach and service members and non-members of all ages and abilities.

The Richmond Hill Country Club Junior Tennis Academy has received recognition as a top national and provincial level program. We strive to follow Tennis Canada's Long Term Athletic Development Plan recommendations and also coach under the guidance of The Great Base Tennis.

## Tennis for Life Stream

Our Tennis for life stream is designed with a clear pathway that includes a wide range of player ability and player objectives. If you are looking to learn the game, improve your skill level, or meet new players with a similar interest and level of play, then our Tennis for Life stream is for you.

In this stream players will learn the key technical, tactical, physical and psychological priority to allow them to progress and play in our various round robin and match play events.

There is a good balance between fun and competitive play. Our goal is to inspire our players to develop the love and passion to stay engaged with tennis as a sport for life.

## High Performance Stream

The goal of this stream is to guide players and parents through the long term development process of competitive tennis. We aim to have all players from our program graduate and play College Tennis with the hope of Pro Tennis to follow.

As a comprehensive development program, we have had several Junior Provincial and National Champions. While also graduating students to a variety of Division 1,2 and 3 NCAA schools.

We will focus on developing a strong fundamental base and acquiring a high level of skill acquisition, and the ability to play an All Court tennis game style. We will teach our players the importance of discipline and hard work that is needed to be a High Performance Tennis player.

We are delighted to collaborate with the MoveFit Lab team to lead our Tier 3 and 4 Programs. Their team will deliver a comprehensive strength and conditioning program tailored to different age groups, with a strong focus on strength, plyometrics, and cardiovascular fitness.

Their mission is to help young athletes develop essential physical attributes that enhance motor skills, body control, strength, and confidence. We will take pride in our ability to support youth development in these key areas.

## REGISTRATION CRITERIA

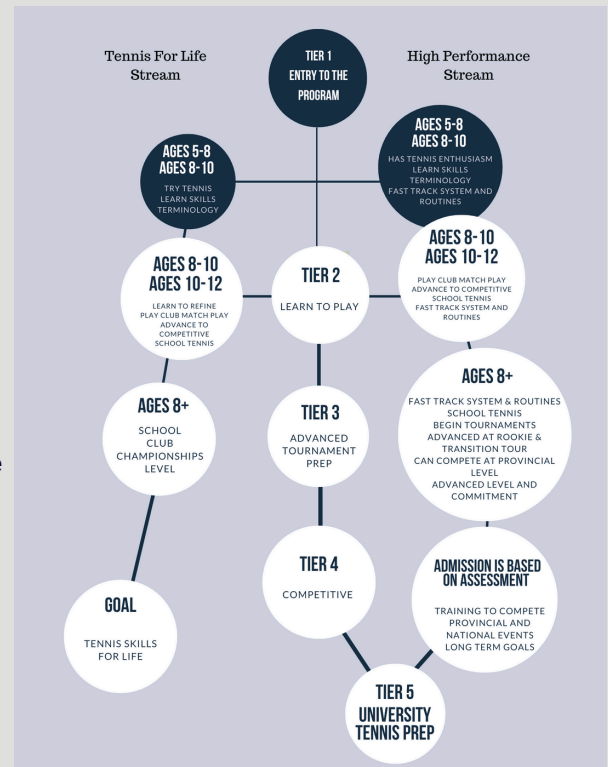

Players are placed according to their age, experience and ability. The Club reserves the right to change placements based on ongoing recommendations of the coaching staff. The Club also reserves the right to make changes to class times and player groups to accommodate a group learning environment.

All families must hold an active Program Membership but then discover the benefits and program rewards associated with one of our other memberships. Players are able to supplement their group program with individual private tennis lessons and a wider range of tennis programs including regular scheduled Group Play, Leagues and Special Events. Take a moment to review our Summer Tennis Academy and Camps.
